

DEPARTMENT 13
OPEN CLASS VEGETABLES AND HERBS
SECTION A VEGETABLES

- In selecting vegetables for exhibition, choose such specimens that would bring the highest market price. Do not select the largest; select marketable size specimens. If at all possible, do not mix varieties.
- The following factors are generally used by an expert vegetable judge:
 - Trueness to variety type. If at all, pick the specimens from one variety.
 - Uniformity in shape, size and color
 - Be sure to pick out a perfect specimen, select the others as similar to it as possible. Never mix specimens of different maturity and leave stems on where possible.
 - Protect from dirt, disease, infection and mechanical damage. Select specimens that are perfect and show no blemishes of any kind.
 - Condition and maturity. Be sure that exhibits are of high quality.
- Read premium material carefully, following all rules and regulations. If an entry calls for 5 specimens, be sure to exhibit that number; do not enter 4 or 6. In any instance, your exhibits will be disqualified if the correct number of specimens is not entered.
- Each exhibitor is responsible for entering his vegetables in the proper class. Flat yellow onions entered in the globe yellow onion class will be disqualified.
- Exhibit your vegetables on white Styrofoam or heavy paper plates except where specifically told otherwise.
- Products must be made or produced by exhibitor except in commercial designated classes.

	PREMIUMS	1 ST	2 ND	3 RD	4 TH	5 TH
CLASS	DESCRIPTIONS	\$3.50	\$3.00	\$2.50	\$2.00	\$1.50
