1. A Certificate of Veterinary Inspection (CVI) issued after May 1, 2022, is required. Equine Infectious Anemia (EIA) test results and date of the test must be included on the CVI.

The following vaccinations are required for all horses and **must be noted on Certificate of Veterinary Inspection form AAI-13:**

- Rabies
 - Tetanus
 - Influenza
 - Encephalomyelitis E. & W. & Venezuelan
 - Rhinopneumonitis
2. All animals must be free of infectious and contagious diseases and a statement of this is required on the CVI (the statement is pre-printed on the CVI). Animals appearing unhealthy upon arrival may not enter the exhibition grounds. **Animals are not to be unloaded until health requirements are checked.**
 3. An Animal Owner or Caretaker's Verification of Veterinarian-Client-Patient Relationship (VCPR) statement for the animals being exhibited must be included on the fair registration form. (A separate VCPR form is no longer required)
 4. All equine animals must have tested negative for EIA by an official test within the 12 months prior to the opening date of the exhibition. Laboratory test results must accompany each animal to its final destination (a copy of the original lab report is acceptable). Foals less than 6 months of age accompanied by a dam, which meets the above requirements, are exempt from EIA testing requirements. If the foal is not accompanied by the dam, a copy of the dam's test results must accompany the foal to its final destination.
 5. A current rabies vaccination administered by a licensed veterinarian is required for animals 3 months of age and older. However, if a mare was currently vaccinated against rabies when she foaled, the foal is not required to be vaccinated until six months of age, with a second vaccination administered two-four weeks later. All vaccine label directions must be followed, and a rabies vaccination certificate must accompany all rabies vaccinated equine animals or the vaccination information must be included on the CVI. If a rabies vaccination certificate is provided, the certificate must contain legible name and contact information of the veterinarian who administered the vaccine and the veterinarian's signature. A copy of the rabies vaccination certificate is acceptable. The CVI is the preferred document.

DRAFT HORSE PULLING CONTEST

WHEN - Saturday, August 27, 2022 - Noon

WHERE – Peoples Grandstand Arena, Westmoreland Fairgrounds

- All entries must adhere to the Equine Regulations for Pennsylvania Fairs for health, including the Coggins Test as stated in General Rules for Horses.
- The contest will follow the rules of the **Laurel Highland Horse Pulling Association**.

OBJECT

The value of draft animals depends upon their ability to pull, and capacity to endure sustained efforts. The object of this test is to determine the sustained maximum pulling capacity of each pair. These tests will also afford valuable scientific data on the relation between form and function in draft animals, and will stimulate general interest in the breeding and use of good draft horses.

In particular it is desired:

1. To demonstrate the value of type, soundness and proper breeding in the selection of horses intended for long and arduous draft work.
2. To ascertain and to demonstrate the proper method of training and conditioning of horse for long and severe draft work.
3. To encourage horsemanship in fitting harness and in driving.
4. To demonstrate the maximum pulling capacity of the horse.
